DECLARATION

I, _____ (BLOCK LETTERS) being the authorised management representative of _____ (property name) declare that the animals described above for the pre export of _____ cattle (type/species of stock) to (country) _____ comply with the following conditions:

- No lame, blind, injured, sick or substituted animals will be loaded on road transport to ship or holding facility.
- To the best of my knowledge, livestock sourced for export comply with Australian food safety requirements, including standards for chemical residues or environmental contaminants.
- The animals for export have been resident in Australia since birth.
- Have come from properties free of any known outbreaks or clinical symptoms prior to shipment from the following diseases:
 - Johne's disease (paratuberculosis) for five (5) years prior to export.
 - Bluetongue, Bovine Malignant Catarrhal fever, Mucosal disease/bovine virus diarrhoea (MD/BVD), Q-Fever, Infectious Bovine Rhinotracheitis / IPV, Haemorrhagic septicaemia, Ephemeral fever, leptospirosis & Zoonotic Bovine Leucosis for three (3) years prior to export.
 - Anaplasmosis, Babesiosis, Sporadic bovine encephalomyelitis, Surra, bovine genital campylobacteriosis, trichomoniasis & Anthrax for twelve (12) months prior to export.
 - Theileriosis, Cysticercosis, Intestinal Salmonella infections (Salmonellosis) and Hendra virus for six (6) months prior to export.
 - Trichomycosis (Ringworm), Contagious Ophthalmia (Pink Eye), Actinomycosis and Dermatophilosis
 - All cattle(s) during the 30 days prior to shipment are free from clinical evidence of any diseases.
- That no cattle are within a withholding period or export slaughter interval for antibiotics. The cattle do not contain hormone growth promotant residues at levels harmful health, as determined by Codex Alimentarius food safety standards.
- The cattle have never been fed with any kind of processed animal proteins excluding milk proteins.

ALL ANIMALS MUST BE TAGGED WITH AN NLIS TAG AT TIME OF ENTRY TO EXPORT YARD

Pre-Export Livestock Transport (in accordance with ASELv2.3 2011)

Please refer to the Australian Standards of Livestock Export V2.3 2011 <http://www.agriculture.gov.au/export/controlled-goods/live-animals/livestock/regulatory-framework/acts-regulations-orders-standards>

A travel plan has been completed for all journeys more than 8 hours duration, and interstate journeys greater than 2 hours (ASEL S2.3)

Livestock have been mustered & handled to prepare for land transport to maintain health, welfare and fitness for travel. Feed and water curfews have been observed (ASEL 2.4/2.8/2.9/App2.1/App2.3).

Livestock were inspected prior to loading and any animals showing signs consistent with rejection criteria in S1.7 or any other condition that may cause animals health and welfare to decline during transit or export preparation, must not be loaded (ASEL 2.11) (OIE A7.33).

Ensure any vehicles are of appropriate design, clean & maintained in good working order for the type of livestock being transported. Transport operators are responsible for this requirement & must maintain a journey logbook (ASEL 2.12).

Livestock drafted & loaded for transport by land were separated by class, species & size. Livestock with horns over 12cm were separated from other livestock (ASEL 2.10).

Working dogs are not transported in the same pens as livestock. Livestock will be unloaded and rested as specified in App2.1 and in accordance with state/territory legislation.

At unloading, the livestock become the responsibility of the management personnel of the PEQ/Registered Premises. Livestock will be unloaded into registered premise by competent stock handlers in a manner that prevents injury and minimises stress. Distressed or injured livestock must be given immediate assistance. Humane euthanasia is to be carried out if necessary (ASEL S2.17-2.24)

Livestock must be unloaded as soon as possible after arrival at the PEQ / Registered Premises. Livestock will be inspected immediately upon arrival (ASEL S3.13)

AUSTREX retains the right to reject cattle that are not transported and delivered in accordance with Section 2 - Land Transport of Livestock - ASEL V2.3
