**WHERE DISTANCE IS A BARRIER,
WE HELP YOU CROSS IT.**

For over 22 years, Angel Flight has provided free non-emergency flights and ground transport for rural Australians who need to travel long distances for medical care.

With the support of our volunteer pilots and drivers, we've helped more than 100,000 country families access vital health services — at no cost to them. We're proud to stand by rural communities and remain committed to bridging the distance when it matters most.

WELCOME

Thank you for supporting the 2026 Richmond Agents All Breeds Bull Sale, held annually at the Richmond Field Days. Since its inception in 2017, the “Bulls for the North” Sale has provided a platform to showcase local studs to a local audience, requiring minimal feeding preparation and adaptation.

This year, we are offering an excellent selection of bulls breeds including Simmentals, Angus, Charolais, Brangus/Ultrablacks, Brahmans & Santa Gertrudis. All of which have been semen and morphology tested and, if necessary, cleared of the dip. These bulls have undergone light preparation and are ready to perform!

We extend our gratitude to the ongoing support and sponsorship from Gener8 Reproduction, Auctions Plus, Jim Pola and Allflex.

We sincerely hope you support these fantastic vendors and their impressive 2026 lineup of “Bulls for the North”.

Sincerely,

*Luke Westaway, James Coates & Ashley Naclerio,
Stockplace Marketing*

*Matthew Kennedy,
Kennedy Rural*

VENDORS OF 2026

WOONALLEE Woonallee is a progressive family-owned Simmental operation which is one of the oldest and largest registered herds in Australia. Our breeding objectives are to produce bulls that are high performing with explosive growth from a young age, have extra fat cover and IMF, are super sound with the ability to cover the ground and most importantly the ability to adapt, thrive and survive in whatever environment they are put in.

We have worked extremely hard and travelled the world to find Black Simmental genetics that can work, add profitability, longevity and fertility to a Northern breeding herd and are confident with what we have on offer. All bulls offered have been DNA tested, sire verified, tested for colour and polled status.

K5X ANGUS K5X Angus is owned by Stephen Hayward & Kellie Smith and was established in 1993 by Kellie in Western Australia before relocating to Allora on the Southern Downs between Warwick and Toowoomba in 1999.

Our home block of land is located just outside of Allora, on 620 acres. We run approximately 300 Angus breeders with most of our females being on agistment around the district and further beyond. Hence our breeders need to calve unassisted and are run under natural conditions which can be tough through many seasons.

Currently we like to have walking sires to join with our cows to test how they survive in our conditions, with the occasional AI program. We select on phenotype, shape, carcass, volume, good feet and structure, as at the end of the day, we sell by the kilo.

100 bulls annually are sold throughout Queensland both privately and at multi vendor sales. We are selling 4 bulls at Richmond this year, these bulls all display the attributes we breed for and are also a good example of what we sell at the Advance Bull Sale annually on the last Monday of August each year in Roma Queensland. Inspections are welcome prior by contacting Stephen Hayward - 0419 642 992.

BRENDALE Brendale Charolais was established over thirty years ago by the Scheiwe family with a program designed to breed performance cattle in the tick zone. Over the years the stud has achieved industry success with two EKKA interbreed champions and many steer and carcass awards. The Brendale focus however has been production of quality high performance Charolais sires to offer clients enhanced profitability in their crossbreeding programs. A strong French bloodline has been maintained with poll and red factor genetics included in more recent years. Brendale have stayed focussed on breeding Charolais sires that can inject muscle, high growth and have sourced sires Australia wide as well as international AI sires. Our breeding properties in the tick zone add to our program, by adding selection intensity for performance.

VENDORS OF 2026

BARRONESSA FARMING At Barronessa, we specialize in breeding Brangus and Ultrablack cattle specifically for the northern region, ensuring they thrive in the challenging conditions here. We are committed to a rigorous selection program, ensuring only our most productive cattle are retained. Females are the cornerstone of a successful program and at Barronessa our female cattle possess essential traits for commercial success: short gestation lengths, excellent milk, and the ability produce calves with top growth even in difficult seasons.

Our bulls are the outcome of a meticulously designed and executed breeding program, focused on balanced birth weights, optimal yields, rapid weight gain, the ability to develop fat cover on pasture or in feedlots, and overall survivability.

We use advanced breeding technologies such as IVF, artificial insemination, genomic analysis, and EBV measurements to ensure genetic progress and reliability in each generation of our cattle.

Choosing Barronessa Brangus and Ultrablacks means investing in cattle bred to excel in northern conditions, providing you with confidence in their performance and ensuring your commercial success.

GI BRAHMANS GI Brahman Stud was first established at Glen Idol on the Atherton Tablelands in 1982 by Ron and Grace Harriman. They decided to focus on breeding polled brahmans with good size and high purity. The stud is now based at Brookfield, only 15 km from Hughenden, to establish a bull depot closer to our main clients in northern Queensland.

After more than 40 years of using exclusively polled bulls, we are achieving more than 90% polled calves even out of horned cows. We use the horn-poll test for all our sale bulls with a high percentage returning PP. The aims of the stud are to produce a highly fertile polled animal while still maintaining mature weight and the characteristics of a pure brahman.

Our leading bulls are sold at multivendor sales across northern Queensland and the remainder are offered for private inspection. Stud heifers are sold by private inspection, at stud sales and online. Frozen semen is available from our leading sires, with commercial rates available.

GYRANDA SANTA GERTRUDIS STUD Gyranda -Stud Number 3 – is one of the oldest Santa studs in Australia. Today Peter and Nikki Mahony own the operation which sells 250+ bulls annually throughout northern Australia. With a focus on fertility, their bulls carry a reputation for maintaining condition across seasons and longevity. Supporters of the Richmond sale since the initial sale in 2019, the bulls offered this year are rising two year olds from the top end of their sale bulls. All Classified, with a full set of EBV data to provide that extra reassurance.

Tissue Sampling Unit (TSU)

Allflex® Tissue Sampling Units provide a simple but effective means for DNA testing livestock. Collect a clean, uncontaminated sample in seconds with a single squeeze motion. TSUs are easy to use and yield excellent lab results.

TSUs can be paired with a matching NLIS and visual management tag, creating a simple link between the genetics of an animal and its identification.

LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

CHAPTER ONE - PRELIMINARY 1. (a) A vendor is bound by these terms and conditions by offering livestock for sale by auction. (b) An agent (which includes an auctioneer) is bound by these terms and conditions by conducting an auction sale. (c) A buyer is bound by these terms and conditions by bidding at auction. (d) Competition and Consumer Act (Cth) 2010 It is unlawful for parties that are, or otherwise would be, in competition with each other to make, or give effect to, a contract, arrangement or understanding that contains a provision relating to: i. price-fixing; or ii. restricting outputs in the production and supply chain; or iii. allocating customers, suppliers or territories; or iv. bid-rigging; or v. collusive bidding. Large fines and other sanctions may be imposed for unlawful conduct. 2. (a) In these terms the expression auctioneer, agent, buyer and vendor respectively includes the servants, contractors and agents of each of them. The auctioneer, agent, buyer and vendor shall be wholly responsible for the acts and omissions of their respective servants, contractors and agents. The term "auctioneer" includes, so far as the law and context permits, the vendor's agent. (b) When used in these terms the expressions "companion animals" means all animals originating from the same property on a particular day. Where lots are split and sent to multiple establishments, then all of these animals shall be regarded as companions. 3. The following applies in interpreting these terms and conditions: (a) The following words have the following meanings: Fees means all levies, charges, fees, costs and other expenses incurred or relating to these terms and conditions and the sale and purchase of livestock including, without limitation, transaction levies, yard and weigh dues, cartage, advertising and rebates, and whether paid for, or incurred, by the agent; Livestock means animals auctioned pursuant to these terms and conditions; and Price means the amount at which the lot has been sold to the buyer referred to in clause 7 of these terms and conditions (i) plus any Fees and other expenses incurred in relation to the purchase of livestock that are payable by the buyer; and (ii) plus any GST added in accordance with clause 12. (b) These terms and conditions are subject to legislation or regulation in the State in which the auction is conducted and in the event of any conflict then the legislation or regulation will prevail. The provisions of these terms and conditions are in addition to, and do not derogate from, the duties and rights of vendors, agents and buyers set out in legislation and regulation in the State in which the auction is conducted.

CHAPTER TWO - STANDARD TERMS OF SALE 4. Subject to any reserve price, and to the right, prior to the fall of the hammer, of the vendor to withdraw any lot without declaring the reserve, the highest bidder shall be the buyer. 5. The auctioneer has the right to bid on behalf of the vendor provided that right is notified prior to the commencement of the sale and is subject to State law. 6. A bid cannot be made or accepted after the fall of the hammer unless, in accordance with clause 8, the auctioneer decides to put the lot up again. 7. Prior to the fall of the hammer the auctioneer shall announce the last bid and receive any further bids. The last price called by the auctioneer at the fall of the hammer shall be the amount at which the lot has been sold. 8. In the event of a disputed bid, the auctioneer is the sole arbitrator of the successful bidder or the auctioneer may decide to put the lot up again. The auctioneer's decision is final. 9. The auctioneer may refuse to accept any bid which, in the auctioneer's opinion, is not in the best interest of the vendor and need not give reasons for doing so. 10. A bidder shall be deemed to be a principal unless, prior to bidding, the bidder has given to the auctioneer a copy of written authority to bid for or on behalf of another person. 11. The successful bidder at a livestock auction sale must give to the auctioneer at the fall of the hammer: (a) the purchaser's name; or (b) the bid card number which identifies the purchaser; or (c) the name of the person on whose behalf the successful bid was made; and (d) the Property Identification Code (known as the "PIC") of destination. 12. The auction shall be conducted on the basis that the bid price shall be exclusive of Goods and Services Tax (GST). GST shall be added after the fall of the hammer for those sales subject to GST. 13. The vendor warrants; (a) That the vendor has (or will have) the right to sell the livestock at the time of delivery; and (b) That the purchaser will obtain title on completion of the purchaser's obligations under this contract including payment. 14. If a buyer does not comply with any of these terms and conditions, which includes the requirements of State law, any livestock knocked down to that buyer may be re-sold by public auction or private contract in whatever lots and manner the auctioneer decides. The re-sale may be with or without notice and shall be at the buyer's risk. The buyer is responsible for all loss and expense arising out of a re-sale and is not entitled to any resulting profit. 15. The buyer of livestock must pay the agent the full amount of the purchase price in immediate funds on receipt of a tax invoice. Payment is required prior to delivery unless some other time for payment is specified in an agreement between the buyer and the auctioneer that was made before the fall of the hammer. If, before delivery, payment has not been made then clauses 20 to 23 apply.

16. No person may bid unless, prior to the commencement of the sale, that person has made arrangements satisfactory to the auctioneer for payment for livestock purchased. If bids in breach of this condition are inadvertently accepted, delivery shall not be given until the purchase money is paid and any law, rule or practice to the contrary is accordingly negated as far as possible. 17. (a) Cattle sold on a liveweight basis that are weighed pre-sale are at the risk and expense of the buyer upon the fall of the hammer. (b) Cattle sold on a liveweight basis that are weighed post-sale are at the risk and expense of the buyer immediately after weighing. (c) All livestock other than cattle sold on a liveweight basis are at the risk and expense of the buyer upon the fall of the hammer. 18. (a) Subject to this clause the sale is complete on the fall of the hammer. (b) The time for rejection is the time commencing at the fall of the hammer and ending at the first of: (i) delivery is taken by a representative of the buyer; (ii) departure of the animal from the purchaser's delivery pen; or (iii) one hour after the last animal is: a. in the case of pre-sale weighing, sold; or b. in the case of post-sale weighing, weighed. (c) During the time for rejection the buyer may reject any animal which is lame, blind or diseased where that condition existed prior to the fall of the hammer but could not be reasonably observed when the animal was in the selling pen. (d) If the purchaser rejects an animal during the time for rejection then the sale of that animal is cancelled and the animal is returned to the vendor or sold on such terms as any buyer and the agent may agree, after the agent has disclosed the reason for rejection to that buyer. (e) This subclause applies only to cattle which are sold in Queensland at auction for slaughter. The agent has responsibility for the prevention of loss or escape (but not death, sickness or injury) of those cattle from the time of the fall of the hammer, for delivery to and from the scales, to the buyer's delivery pen and onto the buyer's nominated transport. This responsibility ends at the earlier of those cattle boarding the buyer's nominated transport or sunset on the day after the sale. This subclause does not apply if the agent makes an announcement to that effect prior to sale.

19. (a) Subject to the right of rejection in Clause 18, all conditions and warranties expressed or implied by law are hereby excluded from the sale to the extent that the law allows. All lots are open for inspection prior to the commencement of the sale and are sold with all faults, if any. No compensation shall be given for any faults, imperfections, errors of description, number in or of any lots sold or otherwise. (b) Any claim or objection arising out of an error or misdescription in the provision of relevant information in terms of legislation or regulation concerning the National Livestock Identification Scheme (NLIS) must be made by 5:00pm on the seventh day after the fall of the hammer. No objection, requisition or claim against the vendor or agent in respect of such error or misdescription can be made after that time. (c) Any statements made by the vendor or the auctioneer whether in writing or orally to the effect that any female has been pregnancy tested or scanned positive shall mean and require only that a certificate in writing shall be supplied to the buyer signed by a qualified veterinary surgeon or certified scanner certifying that the said female has been tested or scanned on the date specified in the certificate and that in the opinion of the surgeon or scanner was pregnant on that date. (d) For slaughter cattle, the agent undertakes to make every reasonable effort to ensure that any NLIS cattle device number is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale. (e) For other slaughter livestock the agent undertakes to make every reasonable effort to ensure that the NLIS information is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale. (f) Where livestock have a food safety or market eligibility status derived from the National Vendor Declaration (NVD) and/or the NLIS/ERP database, the agent will inform the buyers by presale catalogue and/or announce the status prior to the offering of those lots.
